- Meritorious track-record of handling projects generating Renewable Energy Certificates both at the National as well as International Levels. This should stretch from scratch to finish i.e., from collecting all documents that are required for registering the Clean Energy Projects for the REC schemes at National/ International Level as applicable to getting the Renewable Energy Certificates issued in line with the Business Plan of the Organization.
- Exceptionally well networked in the REC/I-REC Industry;
- Thorough knowledge of the legalities and other nuances of the international treaties/agreements/collectives/ cohorts related Renewable Energy Certification both at National as well as International Level.
- Management and leadership skills to guide the team members to ensure that periodic plans for registration of Projects jointly / severally for RECs/I-RECs are strictly adhered to so that timely issuance of the Certificates could be ensured;
- Knack of developing unique solutions to the problems and queries faced during the registration and issuance of Renewable Energy Certificates;
- Knowledge of Renewable Energy/Power Sector and the essential rules and regulations mandating these sectors;
- Proven track-record of handling diverse and multi-dimensional teams to achieve targets;
- Impeccable Knowledge about various RECs, I-RECs, Carbon Credit Mechanisms; Compliance and Voluntary Carbon Markets, Trading Exchanges and all other associated stakeholders in the Renewable Energy Certificate Domain.
- Reasonable knowledge about Carbon Credit Mechanisms; Compliance and Voluntary Carbon Markets, Trading Exchanges and all other associated stakeholders in the Carbon Trading domain.
- Knowledge about various existing, evolving platforms for trading I-RECs and trade exchanges;
- Eye for detail;
- Immaculate documentation capabilities and record management;
- Persistence of following up;

- Attitude to unlearn and learn;
- Self-Starter;
- Team Worker.

**Experience Needed:**

5 to 7 years of proven experience with reputed organization/s (MNCs, Consulting Organizations, Corporates having a sizeable Renewable Energy Certificate portfolio) handling all processes right up to issuance of Renewable Energy Certificates at National as well as International Level.

**Qualifications:**

Masters in Energy/Environmental Studies/Allied Domains;  
and/or

Masters - M.Sc /M.E/M. Tech in Mechanical/Electrical/Environmental Sciences/Energy Studies;

**Compensation:** In line with Academics, Track Record, Experience and Market Parity.
